► Stratus Migrations	► Availity Info

Medisoft Version 11 - Service Pack 4 has been released!

This service pack was released to fix the statement slowness.
To verify your version of Medisoft, Click on Help, About Medisoft.
All computers that use Medisoft should be on the same version.
Make a backup of your Medisoft data before installing the update.
Download and read the install instructions before starting.

Downloads are available on our downloads page at www.ihctech.com

Also; Watch our downloads page on our website for updates to the Electronic Claim Modules

Medisoft Version 12

A fix has been released for the Slow Reports (such as the patient day Sheets).

Install on all computers using Version 12 Medisoft.

Version 12 Service Pack 1 is expected to be released this August.
Please stay tuned for updated information.

Stratus to Phoenix Migrations

Users of the MedAvant Clearinghouse, (aka MedUnite and ProxyMed) are being required to migrate to a newer platform. If this affects you, and you have not spoken to us, please contact us so we can assist you in getting this done before 12/31/07. Your monthly fee does not change and all that is required is some paperwork to be completed.

THIN/AVAILITY

Users of the THIN Clearinghouse,
you will be required to migrate to Availity before 12/31/07.

If you are running Version 11,
you will be required to purchase a new module, AVAP, for $299 thru 11/31/07.
After this date the price will increase to $549.

If you are running Version 12,
there will only be a shipping charge for the AVAP module within 60 days
of it being released.

You will also be required to enroll on Availity's website at www.availity.com.
You will need to supply them with your current Submitter ID.

More information will be supplied soon since Medisoft has not released this module yet
