Windows 7 and Windows 8 users:

You might have noticed that Microsoft has added a new icon on your task bar
This is for the Windows 10 Operating System.

This is a free upgrade from Microsoft for some users of Windows 7 and 8 computers.
This will look similar to Windows 8

Please do not install the new Windows 10 Operating System at this time.

We will need to test this new Operating system.

If you upgrade, some programs might not work properly including Medisoft.

Availity Clearinghouse Changes:

For Medisoft users sending claims to Availity – Internet Explorer Version 8 will no longer work.
You will need to upgrade your Internet Explorer Version or use Chrome or Firefox Internet Browsers.

Office Ally Clearinghouse Users:

If Office Ally wants to connect to your Medisoft Program and make changes – please contact our office.
They have been making incorrect changes to the program.

Capario/Emdeon Clearinghouse Changes:

For Medisoft users sending claims to Emdeon (formerly Capario) using the Revenue Management program:

Changes need to be made to your Medisoft program before August 31, 2015

Emdeon (formerly Capario) has extended the deadline to August 31, 2015

Please visit our website for the instructions, click on the Capario icon in the lower right side.

For customers using the older versions of the software prior to Revenue Management;
You will need to update to the ICD-10 compliant version of the software.

That means Medisoft Versions older than Version 19 need to be upgraded.

You can contact Lee in our office to upgrade.
