## MediChat Newsletter for your Medisoft Software

### **e-MDs to Acquire Ambulatory Software Technology Assets from McKesson**

The products switching to e-MDs are:

Medisoft®, Medisoft Clinical®, Lytec®, Lytec MD®, Practice Choice® and Practice Partner®

**About e-MDs:** Founded by physicians and focused solely on the small to medium sized independent physician practice. Located in Austin, TX, they are an industry leader for usable, connected software that enables physician productivity and a superior clinical experience.

The agreement between McKesson and e-MDs includes the reseller channel which is what we serve to you, our customer. Over 70 McKesson employees are also making the transition to ensure this remains a seamless, un-interrupted service and a continued position for growth of the product lines.

The finalization of this transaction is expected to be completed in the next 60 days and we can be looking at a 9 month or more transition period.

**FIRST: Plan on business as usual. We aren't going anywhere.**

**SECOND:** We are excited about this change. We believe there is a big potential for your ambulatory software experience to bloom under a new, less cumbersome ownership structure.

**THIRD:** We know the question everyone is asking: Will your EHR and Billing products stay exactly the same? Although no huge changes are planned immediately, we expect e-MDs to bring new ideas and solutions to the table at a level McKesson was not able to provide, like greater integration between features, innovative touches, and improvements to user experience.

Your support team is not going anywhere and we're going to take care of our family of clients. We'll keep you informed during the transition, involved in discussions, and up-to-date on plans.
