

Get Ready for ICD-10

Purchase today and receive access to a special ICD-10 Educational Webinar

The new ICD-10 codes take effect on October 1, 2014. Is your practice ready?

To help you prepare, we are offering a special, limited-time offer on our ICD-10- ready Medisoft products. Pre-purchase Medisoft v19 today, and receive access to a special ICD-10 Webinar where you'll learn more about ICD-10 and what changes your practice should expect.

This offer applies to both the Medisoft (PM-only) and Medisoft Clinical (PM/EHR) products, but it's only available for a limited time. The ICD-10 deadline will be here before you know it, so don't wait. Act today.

Medisoft ICD-10 Functionality

The transition from ICD-9 to ICD-10 will impact your practice's workflow, and Medisoft can help you manage the changes. This release has many features designed to help both reduce manual entry and minimize the complexity of ICD-9 to ICD-10 mapping.

Dual diagnosis list

Medisoft v19 makes it easy to search for ICD-9 and ICD-10 codes using the code itself or a full or partial description. Where applicable, the display shows how ICD-10 corresponds to ICD-9. See figure 1.

ICD-10 Webinar

The transition to ICD-10 is much more than just a system upgrade, and getting ready for it must begin long before the October 1, 2014 compliance date. Pre-purchase Medisoft v19 today, and get access to a special, two-hour Webinar that features information on what your practice needs to do to prepare along with valuable tools to help you get started. In this Webinar, you'll learn:

- What ICD-10 means to you
- How to prepare for the financial impact
- How to prepare your staff

Registration

In order to register for the Webinar, you must purchase Medisoft v19. To learn more about the webinar and register, visit www.mckessonpracticesolutions.com/resources/icd10/icd-10-training

| ICD-9 Description | ICD-9 Code | ICD-10 Description | ICD-10 Code |
|----------------------------------|------------|----------------------------------|-------------|
| Venous without coagulation | 862.3 | Venous without coagulation | 862.3 |
| Thrombocytopenia | 862.3 | Thrombocytopenia | 862.3 |
| Thrombocytopenia | 862.3 | Thrombocytopenia | 862.3 |
| Essential (primary) hypertension | 401.1 | Essential (primary) hypertension | 401.1 |
| Essential (primary) hypertension | 401.1 | Essential (primary) hypertension | 401.1 |
| Essential (primary) hypertension | 401.1 | Essential (primary) hypertension | 401.1 |

Customized carrier settings

The new codes go into effect on October 1, 2014, but a select few carriers might not transition on day one. Medisoft V19 allows you to specify whether the carrier is using ICD-9 or ICD-10 and warns you if the wrong code is entered. This helps to both save time and reduce coding errors. It's also easy to set the new code when you add new carriers. *See figure 2.*

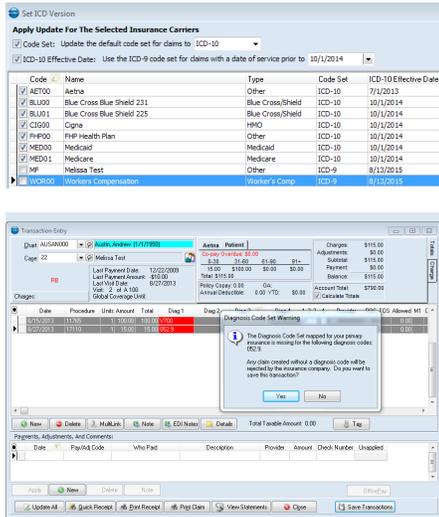

figure 2

Mapping tool

Medisoft V19 features a mapping tool based on CMS's General Equivalent Mappings (GEM) that can help you translate some ICD-9 codes into ICD-10. Enter an ICD-9 code and Medisoft v19 will provide a mapping to the appropriate ICD-10 code(s), where applicable. This helps you compare and translate data during the ICD-10 transition process. *See figure 3.*

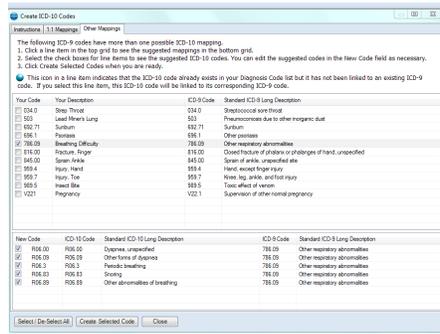

figure 3

New CMS 1500 02-12 form

Beginning April 1, 2014, all physician practices and billers must use the new CMS 1500 Claim Form (02/12) which accommodates ICD-10 codes. Medisoft V19 supports use of this form, helping ensure accurate claims processing. *See figure 4*

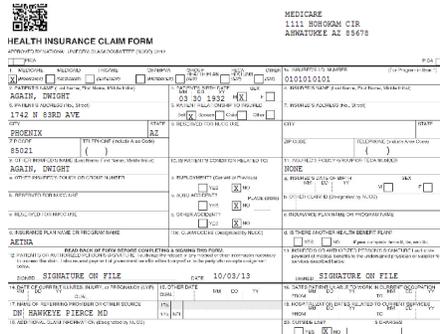

figure 4

Medisoft Mobile

When you purchase Medisoft v19, we'll ship v18 immediately and at no additional cost. This release features many billing, scheduling and patient accounting enhancements. You can also take advantage of Medisoft Mobile, a no-fee application for the iPad® and iPhone®. This ICD-10 ready app allows you to use your phone or tablet to view your schedule and to transmit charges.
