Check Out the New Features in Medisoft V25

Medisoft© powered by eMDs is the most popular, proven, trusted, and affordable practice management solution designed to simplify the way you run your practice. With each new release it gets better and more powerful as new layers of functionality and usability are added. Here are just a few of the notable benefits of upgrading to Medisoft V25.

OCR: The Most Important Scanning Feature You Never Knew You Needed

Optical Character Recognition ("OCR") works with your scanning functionality in Medisoft V25 to convert printed characters from the patient's insurance card such as policy numbers, demographic data, and copays into digital text in your software. You can scrape data from previously saved images or from new scans. Verify the scanned data, select the information you want to save to your Patient's Case, and click OK. It's that simple!

Eliminate mistakes, save time, and increase the accuracy of your patient insurance information with OCR scanning in Medisoft V25. It's the most important feature you never knew you needed.

Enhanced ICD-10 Search Tool powered by IMO® Terminology

Simplify your workflow to document, analyze, and manage patient data to save time and maximize reimbursement. Medisoft V25 includes enhanced ICD-10 search powered by IMO® Terminology. Easily findin the clinically relevant term doctors need that maps to the RIGHT ICD-10 codes for billing that gets you paid. I faster than any lookup in a coding book

Real-Time Eligibility Enhancements

Medisoft V24 introduced enhanced eligibility displays to help keep your practice revenue flowing. Medisoft V25 takes it to the next level by allowing you to request additional patient demographic information with the real-time eligibility request. No more reading messy handwriting or data entry mistakes that can lead to denials that are expensive to rework. Now you can verify that you have accurate patient insurance information including coverage, copays, coinsurance, deductibles, and key patient demographics.

You'll also save precious time with fewer clicks for eligibility checks. Enhanced intelligence means the system knows when to skip prompts that don't apply, resulting in a faster workflow.
