Getting You Paid

Same High-Quality,
Professionally Printed Statements,
Made Even Better with QR Codes.

Great news! We've added FREE QR codes to our mailed patient statements, making it easier than ever for your Billers patients to view and pay their bills online at our payment portal, MyProviderLink.com.

According to a survey conducted by Consumer Action, **74% of respondents prefer to receive their medical bills by mail, but the majority (55.5%) said they still prefer to pay their bills online.**

Empower your Billers to give their patients what they want—the reliability of mailed statements coupled with the convenience of online payments. QR codes unlock this capability and make your mailed statements have even more value — **driving faster payments.**

**Your Billers can turn on this new feature now by adding
eBill Notices and Pay Services to their account!**

Here's just a few of the benefits of the new QR code feature:

Simplified Bill Payments - Patients can now effortlessly access their bills by scanning the QR code printed on the statement. This eliminates the need to search for the payment portal or enter lengthy URLs, saving time and reducing potential errors.

Improved Patient Engagement - By incorporating QR codes, we empower your patients to take immediate action. The added convenience fosters a positive patient experience, increasing the likelihood of prompt payments.

Enhanced Patient Security - Our QR codes are designed to securely redirect patients to our encrypted payment portal, ensuring that sensitive information remains protected throughout the transaction process.

What will your Biller's patients see?

Customers of Billers using [eBill Notices](#) and [BillFlash Pay Services](#) will see a QR code that says, 'Scan to Pay'. The code will redirect them to MyProviderLink.com where they can view *AND* pay their bill.
